

TP 500

500 litre storage tank puffer

Diameter per height	850 x 1,680 mm (with insulator)
Capacity	500 l
Storage tank material	Very thick carbon steel
Weight	101 kg
Maximum working pressure	3 bar
Removable insulation	Polyurethane 100 mm
Covering	Soft PVC

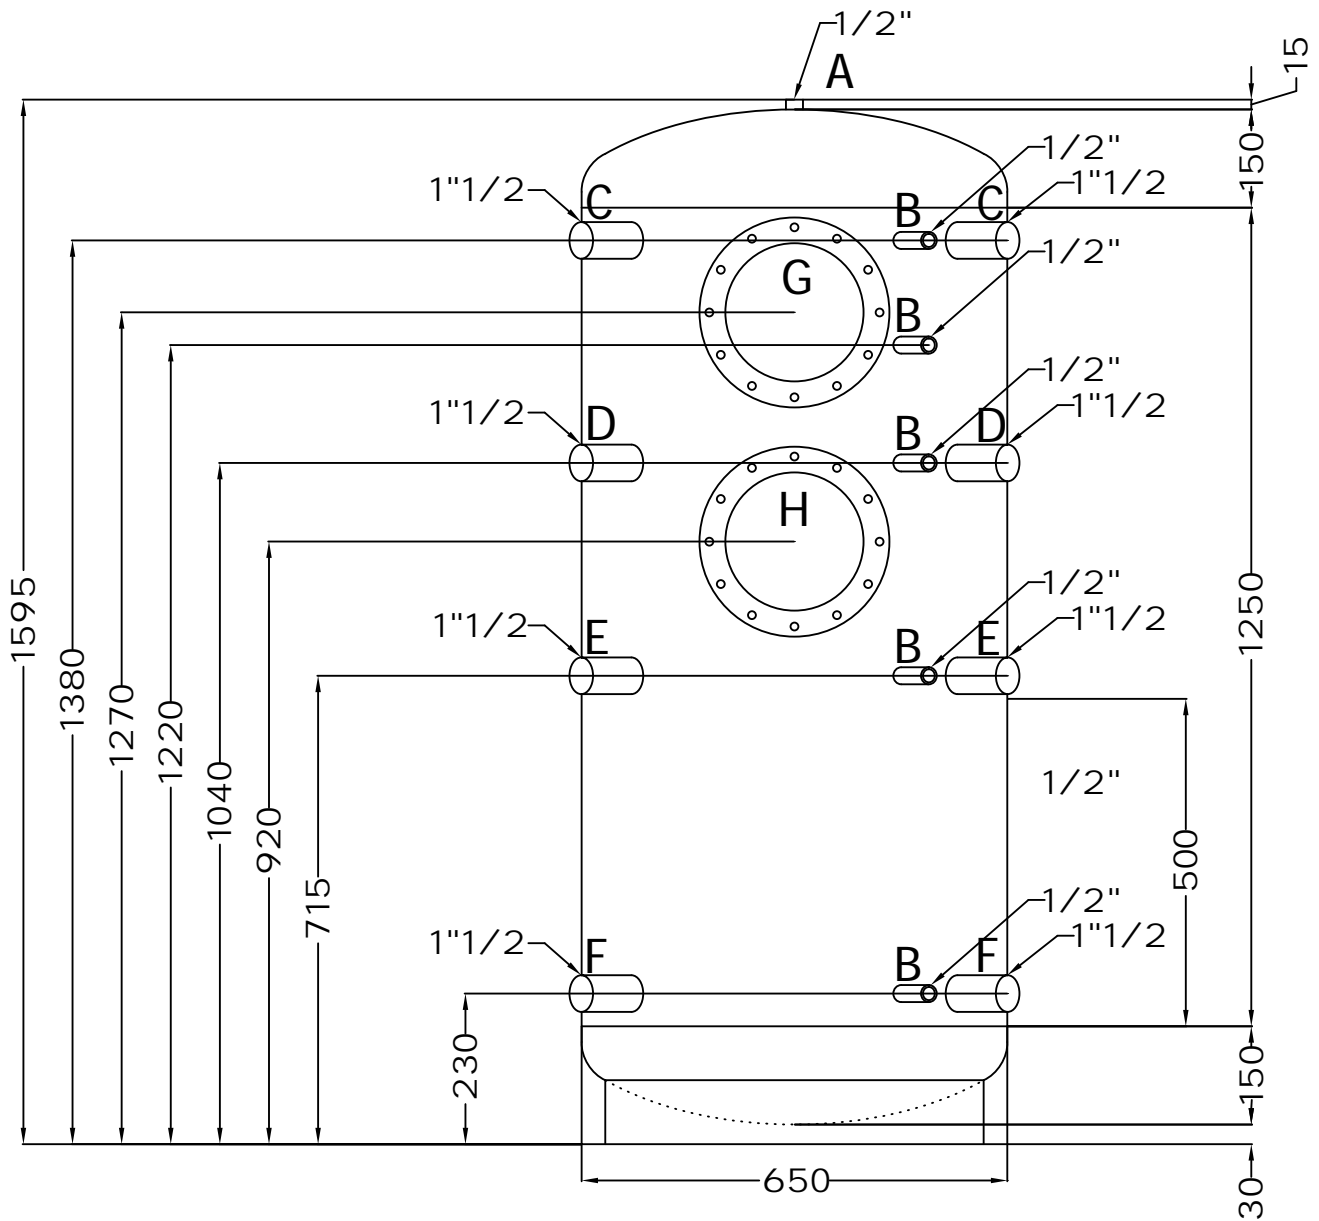

figure 1.17

A	3 bar safety valve + vent	E	Heating flow
B	Temperature probe	F	Heating return
C	Boiler flow	G	Flange for domestic hot water coil
D	Heating flow	H	Flange for boiler coil
